**Subject:** Cherry Blossom Blooming Dates

Dear All,

KTO is pleased to announce the estimated dates of Cherry Blossoms blooming in Korea. You may use the following information as a guideline to attract more passengers to join our tours.

[http://english.visitkorea.or.kr/enu/FU/FU\\_EN\\_15.jsp?cid=1224040](http://english.visitkorea.or.kr/enu/FU/FU_EN_15.jsp?cid=1224040)

They usually start from the south (Jeju) upwards to Seoul. Blooms last for about 2 weeks only. However, please do note that the dates / blooms are subject to weather conditions.

Hope the above is helpful.

Please feel free to contact me should you require any further information on the above.

Thank you.

Best regards,  
David
